Work | Explore | Study

# ABOUT WORK, EXPLORE & STUDY

In the framework, WES-India offers a wide range of internships in Aurangabad on a compulsory as well as a voluntary basis. The internship is designed to provide the unique work, explore and study concept in India. Students will learn about the new culture and explore India's civilization in some of the amazing places.

## What's in it for you?

- Get international experience in India as one of the biggest trade partners of Germany.
- Work side by side with a proven specialist in family-owned companies
- Be part of a joint training together with other interns of different companies.
- Receive a flight ticket from New Delhi / Mumbai to Aurangabad, free housing and meals and transport in Aurangabad.

## Pre-requisite for WES Internship ?

- Student registration during your entire internship
- Bachelor – minim 3 Semester – or Master students in Engineering, Business Engineering, Business Management or related programs (University / University of Applied Science)
- Ideally, you will already have completed some initial work experience or any kind of professional/vocational education.

## You look for a challenge

In your future career, you will work with partners around the world. You can join a seminar on cultural Etiquette of international Business learning on Greetings, Body language, Dress for Success, Dining and Socializing in theory – or you get hand-on experience.

It makes a difference if you take an internship in a large scale company together with hundreds of other interns or if you join a family-owned company and meet the owner and his family for a barbecue. It is your opportunity to learn in a fast-growing region how mid-size companies develop services and products for an international market.

**You look for a team work experience:**

Abpro companies will provide you an opportunity to work in a diverse team in an individual company and jointly sharing the experience with other 4 companies based in Aurangabad. Learning sharing in weekly round table and attending the events hosted by local Industries players would be added advantage to lean the Business scenario and technological needs for a big market like India.

**Get more information about the Abpro companies:**

Abpro companies come from different background and deals with different products and technologies, each company has its unique strength which will give an opportunity to students to learn different products at one time. Information about each Abpro companies can be found at the below link

link - <https://abpro-india.de/member-companies/>

**How could a work project looks like:**

Each student (Intern) would get an opportunity to complete an individual project in a specific field, however, there would be weekly joint learning and presentation sessions among the group of students from all member companies. The project would target towards to understand the business model of each company including products and manufacturing processes and to develop a strategy paper on strengthening their Business development model.

The selected Intern will work closely with local Indian employees of the company to study and analyse the present processes of the company and look for the improvement to achieve the desired business objectives. Each company's top management including Managing Director would be involved by themselves in day to day activities of the interns. Students would be briefed about the project work by Abpro office in Karlsruhe Germany.

## COVID 19 scenario in India

The government of India has relaxed the restriction of COVID 19 for fully vaccinated individuals. Public places like parks, gyms, malls, theatres, and social gatherings are fully accessible without any restrictions.
